PROJECTS

LANDMARK | *HTML, CSS, ReactJS, Typescript, PostgreSQL, ASP.NET, Azure, Git* WEB DEVELOPER

July 2022 - Present

[Demo](#) [GitHub](#)

- Developed and deployed a single-page web application which displays and stores user generated texts over their geolocation
- Utilised modern JavaScript, React hooks & React components to modularise the website contents
- Implemented a RESTFUL API to perform CRUD operations to application data from an ASP.NET webserver hosted on MS Azure
- Designed the website mobile-friendly using HTML/CSS to support dynamic screen sizes allowing a responsive webpage

CUONGMINHVU.XYZ | *HTML, CSS, NextJS, ReactJS, Typescript, Git* WEB DEVELOPER

April 2022 - Present

[Demo](#) [GitHub](#)

- Built a full stack portfolio website using modern NextJS framework that showcases multiple personal projects such as daily reminder, to-do list, appointment booking and current Youtube playlists
- Designed the front-end website from scratch using React Typescript with HTML, CSS hosted on Vercel
- Implemented tracking of important analytics from visiting users to better analyse website performance and SEO ranking
- Utilised core microservices from the cloud provider with adherence to web development standards and best practices

INTERACTIVE SURVEY EXPERIENCE | *Unity Engine (C#/.NET), Git* SOFTWARE PROGRAMMER, COURSEWORK

April 2021 - November 2021

[GitHub](#)

- Collaborated in a high-achieving team to deliver an experimental desktop application for the Pyjama Foundation which used to survey more than 300 clients using Unity Engine and C#/.NET framework
- Designed a dedicated REST API for the project to perform queries to a third-party survey tool Qualtrics
- Trained designers in the team on Git version control; resolved and reviewed Git conflicts and dependencies
- Communicated with the project supervisor to ensure intended features were compromised and their deadlines met

WHATSCAT | *HTML, CSS, ExpressJS, NodeJS, PostgreSQL, AWS, Git* SOFTWARE PROGRAMMER, COURSEWORK

August 2020 - November 2020

[GitHub](#)

- Built a NodeJS web application that displays the common locations for more than 70 breeds of felines all around the world along with photos and miscellaneous details about their traits
- Implemented and utilised a custom PostgreSQL database to access queries data retrieved from a third-party REST API endpoint
- Built and designed the entire website using HTML, CSS to display pinpoints on an embedded world map matched the geodata
- Implemented algorithms for URL fetching and resolving, and sorting of similar photos on the site for any selected breed

SKILLS

TECHNICAL SKILLS

Languages • OOP • C# • C++ • JavaScript (ES6+) • Typescript • HTML5 • CSS/SCSS • SQL (Postgre)

Frameworks • ASP/.NET • React • NodeJS • ExpressJS

Technologies • Docker • Linux • Azure • AWS

Tools • Git • Bash/Shell • Visual Studio • Photoshop

SOFT SKILLS

Analytical Skills, Googling and Research Skills
Professional Communication
